UTAH PTA 2025-2027 LEGISLATIVE PRIORITIES

Utah's children are our most valuable resource, and their success depends on strong schools, healthy families, and safe communities. We call on policymakers, community leaders, and families to work together in ensuring that every child has the opportunity to learn, grow, and thrive. The following priorities highlight the key areas that require support and action to build a brighter future for all Utah students.

Prioritize a generously maintained public school system by increasing overall school funding, supporting teachers, reducing class sizes, and prioritizing local control.

Endorse legislative action and evidence-based efforts to improve the health and well-being of children in Utah

Increase funding to ensure safe schools and to address the growing need for digital and online safety.

Encourage positive character and civic development to help students become resilient and engaged community members.

Champion opportunities for constructive family engagement within schools and the greater community.

By investing in Utah's children, we can ensure they are safe, supported, and empowered to thrive. These priorities reflect our commitment to nurturing their growth, strengthening families, and preparing students to become the leaders of tomorrow. Together, we can create lasting change that uplifts children and builds stronger communities across our state.
